

WORLD'S STRONGEST CHAIN
www.pewagchain.com

First documented evidence of a forging plant in Bruckl, Austria. Company manufactures armor (chain mail) among other products

1479

Christopher Columbus discovers America

1492

Founding of a chain forger in Kapfenberg, Austria

1787

1803

Founding of a chain forger in Graz, Austria

1836

Establishment of an iron casting plant in Bruckl, Austria

Over 525 Years of Innovation

In the world

1912

**Visit us at the Mining Expo, September 24th - 26th - Booth # 4631
See what's new and meet Kelsey - - ask us why Chain Size Matters!**

pewag has been at the core of chain innovation for over 500 years and is pleased to introduce a new addition to its Winner Lifting program.

The FIRST Grade 100 1-1/4" Chain ■ ■ 1st Again!!

and components on the market that can handle the most demanding workloads (WLL 90,000 lbs).

When your workload demands are pushed to the limit, pewag innovation provides superior strength and endurance when you need it the most.

Tired of busting your knuckles when repairing or replacing your tire protection chains in the field? We have a solution!

Introducing Hammer Free Repair Links and Rings

As an alternative to the standard, pewag offers their hammer free repair links and rings that provide these benefits:

EASY Installation

Links can easily be snapped in place and rings only need the use of a 12mm hex wrench to secure.

FAST Repair

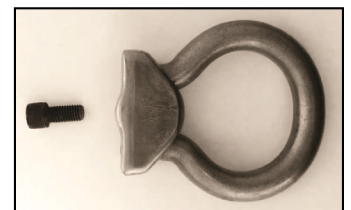

Assembly dramatically reduces the time required for repairs.

STRONG Components

The new snap and lock pin system is stronger than a conventional securing pin.

SAFE to Install

Strike free assembly. No Hammer needed!
